

Software Developer (Information Technology Specialist)
2017 annual salary range: \$69,559 - \$97,923 DOE

Position Description – job expectations

Come work with a friendly and highly capable development team to build diverse web applications for police officers, dispatchers, firefighters, and many other emergency service personnel. Help us create innovative solutions to interesting problems that have a direct effect on your community. Modify existing reporting, dispatch, and search tools that are used every day by hundreds of users.

Specifically, we are looking for a Full Stack Software Developer that will be responsible for designing, developing, and maintaining applications. We have a wide variety of data-driven applications including service-based, client side, and web applications. The successful candidate would work in a medium-sized, close-knit team and must demonstrate independent judgment, initiative, and possess strong communication skills.

We are an Agile development team having 2-week sprints/iterations, daily stand-up, retrospective, and planning meetings. We provide continuous delivery of value through the use of nightly builds, nuget packages, and Octopus Deploy. The streamlined deployment process allows us to deploy changes quickly and consistently to all our environments.

Our team values strong teamwork, continuing education, and serving the community.

Qualifications

- Bachelor's degree in a computer-related field or its equivalent
- Experience with C# .NET or Java
- Unit testing and debugging experience
- Ability to decompose complex problems into manageable units of work
- Possess professional written and oral communication skills
- Independent problem-solving skills
- Ability to maintain effective working relationships with peers, senior staff, and customers.

Nice to Have

- Experience with JSON, REST, or XML
- Angular, JQuery, JavaScript, related frameworks
- Experience using SQL or LINQ to develop data-driven applications
- Google Maps API, ESRI, or other geocoding-related technologies

If you meet the qualifications, apply by submitting the following:

- A letter of interest, listing your work experience
- A current résumé

Position will be open until filled. Submit materials to: hr@southsound911.org. Submittals received without all of the required documents, will not be considered. If you have any questions regarding this announcement, please contact Jan Kurz at 253-798-6078 or jan.kurz@southsound911.org.
