

# Community Info Sessions

## Possible improvements to the Lincoln District Neighborhood

Come learn about plans that would give Tacoma-Pierce County Health Department and Pierce County Community Connections a new home at 3615 Pacific Avenue—and make way for a proposed South Sound 911 public safety communications center.

The proposed project plans involve demolishing the abandoned Puget Sound Hospital facility.

Tacoma-Pierce County Health Department invites you to learn about the concept, then discuss the idea with people from the Health Department, Pierce County and South Sound 911.
